Re: Tucson Electric Power Company's Energy Efficiency Financing Program
Docket No. E-01933A-07-0401, Decision No. 72028 (December 10, 2010)

Decision No. 72028 (December 10, 2010) ordered Tucson Electric Power Company ("TEP") to file a "proposed Energy Efficiency Financing Program for energy efficiency measures such as ductwork and efficiency air conditioning, and shall work with interested community groups in TEP's territory in the crafting of the proposal. The proposal shall also include a description of the steps TEP took to work with local community groups in the formation of the proposal". On January 31, 2011 in Docket No. E-01933A-11-0055, TEP filed its Electric Energy Efficiency Plan ("Plan") for Arizona Corporation Commission approval, attached as Appendix B to the Plan is a proposed 'Residential Energy Efficiency Financing Pilot Program'. Please see that Appendix for the requirements noted above.

In the creation of it financing program, TEP solicited input from the implementation contractors in the area, like KEMA. TEP also contacted and worked with Southwest Energy Efficiency Project ("SWEEP") to develop the program as well as incorporating earlier comments received from Sustainable Economic Development Initiative ("SEDI") in developing the UNS Gas, Inc. financing program. If you have any questions, please contact me at (520) 884-3680.

Best regards,

Jessica Bryne
